The Algebra Teacher's Guide to Reteaching Essential Concepts and Skills Judith A. Muschla 2011-11-15 Easy to apply lessons for reteaching difficult algebra concepts Many students have trouble grasping algebra. In this book, bestselling authors Judith, Gary, and Erin Muschla offer help for math teachers who must instruct their students (even those who are struggling) about the complexities of algebra. In simple terms, the authors outline 150 classroom-tested lessons, focused on those concepts often most difficult to understand, in terms that are designed to help all students unravel the mysteries of algebra. Also included are reproducible worksheets that will assist teachers in reviewing and reinforcing algebra concepts and key skills. Filled with classroom-ready algebra lessons designed for students at all levels The 150 mini-lessons can be tailored to a whole class, small groups, or individual students who are having trouble This practical, hands-on resource will help ensure that students really get the algebra they are learning

Eureka Math Pre-K Study Guide Great Minds 2016-08-02 Eureka Math is a comprehensive, content-rich PreK – 12 curriculum that follows the focus and coherence of the Common Core State Standards in Mathematics (CCSSM) and carefully sequences the mathematical progressions into expertly crafted instructional modules. The companion Study Guides to Eureka Math gather the key components of the curriculum for each grade into a single location, unpacking the standards in detail so that both users and non-users of Eureka Math can benefit equally from the content presented. Each of the Eureka Math Curriculum Study Guides includes narratives that provide educators with an overview of what students should be learning throughout the year, information on alignment to the instructional shifts and the standards, design of curricular components, approaches to differentiated instruction, and descriptions of mathematical models. The Study Guides can serve as either a self-study professional development resource or as the basis for a deep group study of the standards for a particular grade. For teachers who are new to the classroom or the standards, the Study Guides introduce them not only to Eureka Math but also to the content of the grade level in a way they will find manageable and useful. Living Well, Spending Less / Unstuffed Study Guide Ruth Soukup 2018-11-06 Have you ever felt that your

life—and budget—is spiraling out of control? Clutter spilling onto counters and coffee tables, creating havoc everywhere you look? Do you sometimes wish you could pull yourself together but wonder exactly how to manage all the scattered pieces of a (normal) chaotic life? Regardless of the never quite-enough message society wants to give us, always wanting more and ending up having too much is not the Good Life God intended. More than setting and sticking to a budget; more than quitting the constant filling of our spaces with deals on more stuff—we must fill our hearts with the truth of God's Word and allow it to change what our hearts desire. The Good Life is one defined not by what we have but by who we are. If you feel stressed out or overwhelmed, this study will help you discover the way to a life rich in faith, family, friends—and a budget that balances with space to breathe. Take back your life from the stuff that is weighing you down! Ruth Soukup, New York Times bestselling author and popular blogger, knows all too well how overwhelming it can feel to have a life filled with too many things. Through personal stories, biblical principles, and practical action plans, she will inspire you to make real and lasting changes to your personal goals, home, and finances while decluttering your mind and soul. This 8-week study will help you: Find balance by letting go of unhealthy habits that compete for our hearts and spirits. Discover your "sweet spot"—that place where your talents and abilities intersect. Take back your time and schedule by making simple shifts in your daily routines. Reduce stress in your home and family by clearing out the clutter. Stop busting your budget and learn to cut your grocery bill in half. Discover how to set strict limits for the stuff we bring into our space. Overcome frustration and implement practical solutions for keeping the chaos at bay. Recognize the pitfalls of an overstuffed schedule and learn to combat the culture of busy. This study guide is designed for use with the Living Well, Spending Less / Unstuffed Video Study (sold separately).

Loveology Study Guide John Mark Comer 2014-02-04 In the beginning, God created Adam. Then he made Eve. And ever since we ' ve been picking up the pieces. Loveology is a theology of love from God ' s point of view. The five sessions start with God ' s design for marriage and works backward, dealing with sexuality, romance, singleness, and what it means to be male and female. Pastor and writer John Mark Comer shares about what is right in male/female relationships—what God intended in the Garden. And about what is wrong—the fallout in a post-Eden world. The Loveology video-based Bible study (DVD/digital video sold separately) is for anyone who wants to learn what the Scriptures have to say about sexuality and relationships and for people who want to ask the why questions and get intelligent, grace-and-truth answers. As you walk through this five-week study, you will come to better understand what God fully intended back in the garden. By comprehending the brilliance behind God ' s original plan for love and marriage and sex and romance—if we can redefine that fuzzy, amorphous, confusing word “ love ” and look at it through the lens of Jesus—your marriages and relationships will be radically altered as a result. This study guide contains video notes, individual or group reflection questions, and between session personal applications to enhance your journey through the video study. Sessions include:

Teaching and Learning STEM Richard M. Felder 2016-02-11 Rethink traditional teaching methods to improve student learning and retention in STEM Educational research has repeatedly shown that compared to

traditional teacher-centered instruction, certain learner-centered methods lead to improved learning outcomes, greater development of critical high-level skills, and increased retention in science, technology, engineering, and mathematics (STEM) disciplines. Teaching and Learning STEM presents a trove of practical research-based strategies for designing and teaching STEM courses at the university, community college, and high school levels. The book draws on the authors' extensive backgrounds and decades of experience in STEM education and faculty development. Its engaging and well-illustrated descriptions will equip you to implement the strategies in your courses and to deal effectively with problems (including student resistance) that might occur in the implementation. The book will help you: Plan and conduct class sessions in which students are actively engaged, no matter how large the class is Make good use of technology in face-to-face, online, and hybrid courses and flipped classrooms Assess how well students are acquiring the knowledge, skills, and conceptual understanding the course is designed to teach Help students develop expert problem-solving skills and skills in communication, creative thinking, critical thinking, high-performance teamwork, and self-directed learning Meet the learning needs of STEM students with a broad diversity of attributes and backgrounds The strategies presented in Teaching and Learning STEM don't require revolutionary time-intensive changes in your teaching, but rather a gradual integration of traditional and new methods. The result will be continual improvement in your teaching and your students' learning. More information about Teaching and Learning STEM can be found at <http://educationdesignsinc.com/book> including its preface, foreword, table of contents, first chapter, a reading guide, and reviews in 10 prominent STEM education journals.

Contagious Faith Study Guide plus Streaming Video Mark Mittelberg 2021-12-28 This Study Guide includes: Individual access to 6 streaming video sessions Discussion and reflection questions with video notes Personal study between sessions Leader ' s Guide In this new video-based training course, bestselling author and teacher Mark Mittelberg introduces you to the five Contagious Faith Styles—Friendship-Building, Selfless-Serving, Story-Sharing, Reason-Giving, and Truth-Telling—and helps you discover which of these approaches (or combination of them) will enable you to naturally share your faith in Jesus with the people around you. The Contagious Faith assessment will help you identify your primary style, along with any secondary styles you discover. It will give you next steps for developing and deploying your natural approach in order to reach others for Christ. It will also emphasize the importance of all the skill set areas discussed in the Contagious Faith book, and wherever natural it will prompt them to try out the skills discussed on the video with someone else in the group. In this way their effectiveness and confidence will grow—and with it, their potential for bearing spiritual fruit by impacting the lives of others. The six sessions in Contagious Faith can be used in small groups, classes, student ministries, and church-wide campaigns. The training videos will also include short interviews in which Mark Mittelberg will interact with

five individuals who speak and use each of the 5 faith-sharing styles. Much like Mittelberg's *Becoming a Contagious Christian*, we see the *Contagious Faith* book and course becoming the standard materials churches and Christian ministries will use around the world to help their members more effectively share their faith with others.
