Nutrition Education for Preschoolers 1983 Abstract: A selected listing of 93 nutrition education resources is provided to aid child care center staff and family day care home providers in initiating or maintaining a nutrition education program for children of ages 2-5. The materials in this guide are organized into 5 sections according to either intended audience of instruction or to type of material. The 5 sections comprise: nutrition education programs (materials directed towards child and adult audiences for providing a complete child care nutrition education program); aids for teaching care-givers (materials directed towards child care providers and parents); lesson plans for teaching children; food and nutrition activities for teaching children; and audiovisuals for teaching children and care givers Each section includes an introduction providing additional information on the types of materials included. Each resource citation includes information on the type of material, source availability, cost, an abstract, and an appraisal. (wz).

Textile Advances in the Automotive Industry Roshan Shishoo 2008-10-20 Automotive textiles represent one of the most valuable international markets for technical textiles. Textile advances in the automotive industry provides an in-depth review of the design and development of automotive textiles and the recent advances made in technical textiles for a variety of automotive applications. Part one discusses issues such as automotive textile requirements from a car producer's perspective, mapping the automotive textile supply chain, advances in textile fabrics including nonwoven fabrics, and recycling issues. Part two focuses on automotive interiors with chapters on performance and style of interior textiles, materials and design for car seats, and the reduction of interior noise in vehicles. Part three discusses the important safety applications of automotive textiles, including airbags and tyres. Part four concludes by assessing how textiles can be used in automotive bodywork. With its distinguished editor and a team of contributors from both academia and industry, this book is an essential reference for a broad spectrum of readers, ranging from scientists, designers, product development staff to company strategists. Provides an in-depth review of recent advances in the design and development of automotive textiles. Comprehensively examines the automotive textile industry covering key requirements, the supply chain, fabrics and recycling. Addresses important safety considerations in automotive textiles including airbags and tyres.
