Corporate DNA Arnold Kransdorff 2017-05-15 For more than half a century the developed world has been chasing productivity. It's financed our wealth but that part of output on which our continued prosperity depends - productivity growth - is petering out. The traditional scapegoat has been the dearth of worker skills. But the worker skills base has never been higher! The other explanation is that it is managers who are not giving full value to their employers. The way they're making decisions is conferring virtually no upside potential, which means they're leaving us wide open for experience-poor competitors to step into our experience-rich shoes. Exactly as Japan did in the 1960s and the so-called BRICK countries - Brazil, Russia, India, China (especially China) and Korea - are threatening now. If creeping uncompetitiveness is not to overtake us, from where are the next round of productivity gains to come from? Identifying some gaping holes in the way managers are taught to manage, this book outlines both the size of the problem and a solution. Businesses and other organizations, the author says, have to substantially raise the quality of their decision-making. For this to happen, they need to be much better experiential learners. And for experiential learning to take place, companies and other institutions have to better manage their corporate DNA, the institution-specific experiences otherwise known as Organizational Memory. OM, which characterizes any organization's ability to perform, is the single biggest influence on decision-making excellence. It is a factor of production that has

already been paid for at great expense, yet is readily discarded in the backwash of the biggest change in workplace practice for more than a century - the actively-encouraged flexible labour market. Corporate DNA explains why this key component of intellectual capital should be better managed, can be better managed and, particularly, how it can be used to help organizations reduce the pandemic of repeated mistakes, rei

The Business School Buzz Book Carolyn C. Wise 2007 In this updated guide, Vault publishes the entire surveys of current students and alumni at more than 100 top business schools. Each 4- to 5-page entry is composed almost entirely of insider comments from students and alumni. Each school profile features surveys of about 10 students or alumni. These narratives provide applicants with detailed and balanced perspectives and insider information on admissions and employment prospects, which is lacking in other business school guides.

Alles zerfällt Chinua Achebe 2012-04-05 Der Afrika-Roman, der die moderne afrikanische Literatur begründete und die Weltliteratur prägte – endlich in neuer Übersetzung! Chinua Achebe erzählt von Verrat und Rache, von Leidenschaften, die keine Ruhe finden, und von Sehnsüchten, die keine Zukunft haben. Okonkwo, stark und jähzornig, stösst sich an den strengen Stammesregeln und zerbricht an dem Regime der britischen Kolonialherren. In seinem Meisterwerk beschreibt Achebe den Konflikt einer archaischen Kultur in einer Sprache, die rituell-sprichwörtlich, dokumentarisch und elementar poetisch ist: Mit diesem Roman erhielt der Kontinent eine Stimme.
