**Choose Results! Make a Measurable Difference Through Aligned Action** Raj Chawla 2018-10-04 Choose Results is a deeply considered call to action to leaders committed to improving people's wellbeing. Grounded in the fields of action learning, collaborative thinking, and collective action, Choose Results elucidates the necessary but difficult task of collaborating with others in ways that align action, de-emphasize the personal, and leverage parallel lines of work with in-depth examples from boots-on-the-ground work. This book provides methods, worksheets, and templates to give leaders the tools and practices they need to work effectively with multiple stakeholders and partners across bureaucracies big and small. Raj Chawla has worked with hundreds of leaders who are interested in making a measurable difference in the quality of life in their communities. With a focus on practice and application, he connects leaders' inherent passion for making a difference to the discipline of using data to inform decisions and the sometimes humbling vulnerability needed to choose results.

**Die Arroganz der Macht** J. William Fulbright 2018-08-17 Nach den bürgerkriegsähnlichen Unruhen in Vierteln von Newark, Detroit und anderen Städten der USA faßte Fulbright Anfang August 1967 in einer Rede vor der amerikanischen Anwaltsvereinigung in Honolulu seine Kritik an der Innen- und Außenpolitik der USA zusammen in dem Urteil, die Vereinigten Staaten «übten Macht um der Macht willen» aus und sie seien auf dem Wege, «eine imperialistische Nation zu werden». Der Illusion, Amerika könne in Vietnam Krieg führen und zugleich Armut

und Rechtsungleichheit im eigenen Lande wirksam bekämpfen, hielt der Senator die Diagnose entgegen, die USA seien im Begriff, den Krieg an beiden Fronten zu verlieren, denn: «Der Vietnamkrieg zehrt nicht nur an den menschlichen und materiellen Grundlagen unserer schwelenden Städte, er nährt nicht nur in den Slums die Überzeugung, daß das Land ihrer Lage gleichgültig gegenüberstehe. Der Krieg bestärkt immer mehr die Vorstellung, daß die Gewalt ein Weg zur Lösung von Problemen sei.»

*Unterdrückung und Befreiung* Paulo Freire 2007 Diese Sammlung von Schriften aus der Zeit von 1970 bis 1990 des brasilianischen Pädagogen Paulo Freire (1921-1997) gibt einen Einblick in die Grundlagen und Prinzipien seiner Bildungsarbeit auf der Basis der Pädagogik der Befreiung. In den ausgewählten Texten werden nicht nur pädagogische Probleme und inhaltlich-methodische Fragen der Bildungsarbeit thematisiert. Sie enthalten ebenso Analysen und Bewertungen von Politik, Kultur, Religion, Ethik und Veränderungsmöglichkeiten von Gesellschaft - eine Erweiterung, die sich gegen eine Vorstellung wendet, Pädagogik sei von Gesellschaft und Politik losgelöst zu behandeln. Scharfsinnig hat Freire u.a. die verheerenden Folgen des Neoliberalismus für Individuum und Gesellschaft analysiert und zum widerständigen Denken und Handeln ermuntert. Eine Auswahl repräsentativer alter und neuer Texte von Paulo Freire: Wer sie zur Hand nimmt, entdeckt rasch, dass uns dieser brasilianische Pädagoge nicht nur für die Theorie und Praxis unserer Erziehungsarbeit, sondern für unser Überleben Entscheidendes zu sagen hat. Prof. Dr. Ulrich Becker, Universität Hannover

but rather grappled to overcome it.

**Moving Toward a Just Peace** Jan Marie Fritz 2013-11-18 Mediation, the facilitated discussion of disputes and conflicts, is a flexible approach that can be used at all levels of intervention to move us toward a global peace that is both inclusive and fair. This volume, edited by Jan Marie Fritz, brings together mediators, scholar-practitioners, and a veteran diplomat to discuss the life and times of mediation in very different settings. The 14 chapters include three essays about culture, creativity, and models/theories/approaches. And there are ten chapters about practice: community mediation, mediation by police, special education mediation; interventions on behalf of widows in Nigeria; capacity-building work in Burundi; mediation in Israel; the creative facilitation of meetings; community conferencing; UN Security Council Resolution 1325 (Women and Peace and Security) and the role of civil society organizations in peacebuilding. This volume discusses the expanding roles - from prevention through societal transformation - assumed by mediators and the urgent need for mediators working at different intervention levels to learn from each other. This volume is a must read for scholars, researchers, policymakers, civil society representatives and practitioners with interests in effective dispute and conflict intervention. Prosecuting Conflict-Related Sexual Violence at the ICTY Baron Serge Brammertz 2016-04-14 Although sexual violence directed at both females and males is a reality in many on-going conflicts throughout the world today, accountability for the perpetrators of such violence remains the exception rather than the rule. While awareness of the problem is growing, more effective approaches are urgently needed for the investigation and prosecution of conflict-related sexual violence crimes. Upon its establishment in 1993, the Office of the Prosecutor (OTP) of the International Criminal Tribunal for the Former Yugoslavia (ICTY) began the challenging task of prosecuting the perpetrators of conflict-related sexual violence crimes, alongside the many other atrocities committed during the conflicts in the former Yugoslavia. This book documents the experiences, achievements, challenges, and fundamental insights of the OTP in prosecuting conflict-related sexual violence crimes at the ICTY over the past two decades. It draws on an extensive dossier of OTP documentation, court filings, trial exhibits, testimony, ICTY judgements, and other materials, as well as interviews with current and former OTP staff members. The authors provide a unique analytical perspective on the obstacles faced in prioritizing, investigating, and prosecuting conflict-related sexual violence crimes. While ICTY has made great strides in developing international criminal law in this area, this volume exposes the pressing need for determined and increasingly sophisticated strategies in order to overcome the ongoing obstacles in prosecuting conflict-related sexual violence crimes. The book presents concrete recommendations to inform future work being done at the national and international levels, including that of the International Criminal Court, international investigation commissions, and countries developing transitional justice processes. It provides an essential resource for investigators and criminal lawyers, human rights fact-finders, policy makers, rule of law experts, and academics.

**Extraterritorial Use of Force Against Non-State Actors** Noam Lubell 2010-05-27 This book analyses the primary relevant rules of international law applicable to extra-territorial use of force by states against non-state actors. Force in this context takes many forms, ranging from targeted killings and abductions of individuals to large-scale military operations amounting to armed conflict. Actions of this type have occurred in what has become known as the 'war on terror', but are not limited to this context. Three frameworks of international law are examined in detail. These are the United Nations Charter and framework of international law regulating the resort to force in the territory of other states; the law of armed conflict, often referred to as international humanitarian law; and the law enforcement framework found in international human rights law. The book examines the applicability of these frameworks to extra-territorial forcible measures against non-state actors, and analyses the difficulties and challenges presented by application of the rules to these measures. The issues covered include, among others: the possibility of self-defence against non-state actors, including anticipatory self-defence; the lawfulness of measures which do not conform to the parameters of self-defence; the classification of extra-territorial force against non-state actors as armed conflict; the 'war on terror' as an armed conflict; the laws of armed conflict regulating force against groups and individuals; the extra-territorial applicability of international human rights law; and the regulation of forcible measures under human rights law. Many of these issues are the subject of ongoing and longstanding debate. The focus in this work is on the particular challenges raised by extra-territorial force against non-state actors and the book offers a number of solutions to these challenges.

**From Historical to Critical Post-Colonial Theology** Robert S Heaney 2016-05-26 What is post-colonial theology? How does it relate to theology that emerged in historically colonial situations? These are two questions that get to the heart of Robert S. Heaney's work as he considers the extent to which theologians predating the emergence of post-colonial theology might be considered as precursors to this theological movement. Heaney argues that the work of innovative theologians John S. Mbiti and Jesse N.K. Mugambi, important in their own right, must now also be considered in relation to the continued emergence of post-colonial theology. When this is done, fresh perspectives on both the nature of post-colonial theology and contextual theology emerge. Through a sympathetic and critical reading of Mbiti and Mugambi, Heaney offers a series of constructive moves that counter the ongoing temptation toward acontextualism that continues to haunt theology both in the North and in the South.

**Our Inner Conflicts** Karen Horney 1993-01-05 Here Karen Horney develops a dynamic theory of neurosis centered on the basic conflict among attitudes of "moving forward" "moving against," and "moving away from" people. Unlike Freud, Horney does not regard neurosis as rooted in instinct. In her words, her theory is constructive because "it allows us for the first time to tackle and resolve neurotic hopelessness. . . . Neurotic conflicts cannot be resolved by rational decision. . . . But [they] can be resolved by changing the conditions within the personality that brought them into being."

*To Make the Earth Whole* Marc Gopin 2009-06-15 *To Make the Earth Whole* studies the art of citizen diplomacy\_a process that can address clashes of religion and culture across regional lines even when traditional negotiations between governments can fail. While faith and regional differences have been sources of division around the world in recent decades, millions of citizens are also creating bonds of friendship and collaboration that are forming the basis of a global community. Drawing on the experiences gleaned from years practicing citizen diplomacy in some of the world's most politically charged climates, scholar-practitioner of conflict resolution and rabbi Marc Gopin describes his work in Syria as a central case study of the book. The author outlines the strategic basis for creating community across lines of enmity, the social network theory to explain how this happens, and the long term vision required for a progressive but inclusive global community that respects religious communities even as it limits their coercive power over others. This powerful and practical book outlines an incremental and evolutionary strategy of positive change that stands a strong chance of success, even in today's most conservative and repressive religious and political contexts. *To Make the Earth Whole* also examines the ethical challenges of citizen diplomacy from the perspectives of both Western and Eastern philosophies and religions. The world's wisdom traditions are essential in devising a way for citizens to develop the foundations for global community.

*The Minority Muslim Experience in Mainland Southeast Asia* John Goodman 2021-07-13 This book examines the lives of the Malay and Cham Muslims in Thailand, Cambodia and Vietnam and examines how they co-exist and live in societies that are dominated by an alternative consensus and are illiberal and non-democratic in nature. Focusing on two major Muslim communities in Southeast Asia, both of whom live as minorities in societies that are not

democratic and have a history of hostility and repression towards non-conforming ideas, the book explains their circumstances, the choices and life decisions they have to make, and how minorities can thrive in an unfriendly, monocultural environment. Based on original field work and research, the author analyses how people live, and how they adapt to societies which are not motivated by Western liberal ideals of multiculturalism. The book also offers a unique perspective on how Islam develops in an environment where it is seen as alien and disloyal. A useful contribution analyzing historical and post-colonial experiences of Muslim minorities and how they survive and evolve over the course of state monopoly in mainland Southeast Asia, this book will be of interest to academics working on Muslim minorities, Asian Religion and Southeast Asian Studies.

*Charter School Funding Considerations* Christine Rienstra Kiracofe 2022-01-01 Much has been written about how public schools in the United States are funded. *Water, Security and U.S. Foreign Policy* David Reed 2017-06-26 The prosperity and national security of the United States depend directly on the prosperity and stability of both partner and competing countries around the world. Today, U.S. interests are under rising pressure from water scarcity, extreme weather events and water-driven ecological change in key geographies of strategic interest to the U.S. Those water-driven stresses are undermining economic productivity, weakening governance systems and fraying social cohesion in scores of countries and, in the process, undermining the vitality of rural livelihoods, fostering local and ethnic

conflicts, driving broad migratory movements and contributing to the growth of insurgencies and terrorist networks. While the U.S. intelligence community has steadily expanded natural resource concerns in their global threat analyses, our overseas development assistance remains locked into provision of water and hygienic services rather than responding to the full sweep of global water challenges including governance and policy failures, growing conflicts over water and the need for promoting sustainable transboundary water arrangements in partner countries. A fundamental departure from the past is urgently needed. Based on 18 case studies, *Water, Security and U.S. Foreign Policy* provides an analytical framework to help policy makers, scholars and researchers studying the intersection of U.S. foreign policy with the environment and sustainability issues, interpret the impacts of water-driven social disruptions on the stability of partner governments and U.S. interests abroad. The book also delivers specific recommendations to reorient U.S. development and diplomatic engagements that can forestall and prevent social disruptions and ensuing threats to U.S. prosperity and national security.
