Uncanny Valley Anna Wiener 2020-01-14 A NEW YORK TIMES BESTSELLER. ONE OF THE NEW YORK TIMES'S 10 BEST BOOKS OF 2020. Named one of the Best Books of 2020 by The Washington Post, The Atlantic, NPR, the Los Angeles Times, ELLE, Esquire, Parade, Teen Vogue, The Boston Globe, Forbes, The Times (UK), Fortune, Chicago Tribune, Glamour, The A.V. Club, Vox, Jezebel, Town & Country, OneZero, Apartment Therapy, Good Housekeeping, PopMatters, Electric Literature, Self, The Week (UK) and BookPage. A New York Times Book Review Editors' Choice and a January 2020 IndieNext Pick. "A definitive document of a world in

transition: I won't be alone in returning to it for clarity and consolation for many years to come." --Jia Tolentino, author of *Trick Mirror: Reflections on Self-Delusion*

The prescient, page-turning account of a journey in Silicon Valley: a defining memoir of our digital age

In her mid-twenties, at the height of tech industry idealism, Anna Wiener—stuck, broke, and looking for meaning in her work, like any good millennial--left a job in book publishing for the promise of the new digital economy. She moved from New York to San Francisco, where she landed at a big-data startup in the heart of the Silicon Valley bubble: a world of surreal extravagance, dubious success, and fresh-faced entrepreneurs hell-bent on domination, glory, and, of course, progress. Anna arrived amidst a massive cultural shift, as the tech industry rapidly transformed into a locus of wealth and power rivaling Wall Street. But amid the company ski vacations and in-office speakeasies, boyish camaraderie and ride-or-die corporate fealty, a new Silicon Valley began to emerge: one in far over its head, one that enriched itself at the expense of the idyllic future it claimed to be building. Part coming-of-age-story, part portrait of an already-bygone era, Anna Wiener's memoir is a rare first-person glimpse into high-flying, reckless startup culture at a time of unchecked ambition, unregulated surveillance, wild fortune, and accelerating political power. With wit, candor, and heart, Anna deftly charts the tech industry's shift from self-appointed world savior to democracy-endangering liability, alongside a personal narrative of aspiration, ambivalence, and disillusionment. Unsparing and incisive, *Uncanny Valley* is a cautionary tale, and a revelatory interrogation of a world reckoning with consequences its unwitting designers are only beginning to understand.

The Ransomware Hunting Team Renee Dudley 2022-10-25 A real-life technological thriller about a band of eccentric misfits taking on the biggest cybersecurity threats of our time. "What Michael Lewis did for baseball in Moneyball, Dudley and Golden do brilliantly for the world of ransomware and hackers. Cinematic, big in scope, and meticulously reported, this book is impossible to put down." –Doug Stanton, New York Times bestselling author of In Harm's Way and Horse Soldiers Scattered across the world, an elite team of code crackers is working tirelessly to thwart the defining cyber scourge of our time. You've probably never heard of them. But if you work for a school, a business, a hospital, or a municipal government, or simply cherish your digital data, you may be painfully familiar with the team's sworn enemy: ransomware. Again and again, an unlikely band of misfits, mostly self-taught and often struggling to make ends meet, have outwitted the underworld of hackers who lock computer networks and demand huge payments in return for the keys. The Ransomware Hunting Team traces the adventures of these unassuming heroes and how they have used their skills to save millions of ransomware victims from paying billions of dollars to criminals. Working tirelessly from bedrooms and back offices, and refusing payment, they've rescued those whom the often hapless FBI has been unwilling or unable to help. Foremost among them is Michael Gillespie, a cancer survivor and

cat lover who got his start cracking ransomware while working at a Nerds on Call store in the town of Normal, Illinois. Other teammates include the brilliant, reclusive Fabian Wosar, a high school dropout from Germany who enjoys bantering with the attackers he foils, and his protégé, the British computer science prodigy Sarah White. Together, they have established themselves as the most effective force against an escalating global threat. This book follows them as they put their health, personal relationships, and financial security on the line to navigate the technological and moral challenges of combating digital hostage taking. Urgent, uplifting, and entertaining, Renee Dudley and Daniel Golden's *The Ransomware Hunting Team* is a real-life technological thriller that illuminates a dangerous new era of cybercrime.
