Criminal Justice System of Pakistan Fatima Tariq 2020-03-11 Academic Paper from the year 2020 in the subject Law - Criminal process, Criminology, Law Enforcement, grade: A, course: Criminal Law, language: English, abstract: The point of discussion of this paper is to have a detailed overview of the criminal justice system of Pakistan. It begins with the understanding of the criminal justice system as a general. I would briefly dilate upon several components that constitute and become part and parcel of the criminal justice system of Pakistan; and of course, the objectives of the criminal justice system. Also, this paper penned down the stages of crime. Principles arising out of various case laws related to the administration of justice have been provided. Also, the legal basis of the criminal justice system of Pakistan will be laid down. This paper will explain the landmark criminal case: *Mst. Sughran Bibi v The State*. I would not have done justice to the subject-matter of the case in hand had I not touched the topic of F.I.R as this case has direct relevance to the concept of F.I.R. I would throw light upon the judgment with regard to the rule of law and its impact on the judicial system of Pakistan. Furthermore, it will be discussed how the current system is flawed. In addition to that this paper will do a comparison between criminal justice of Pakistan with developed states. In the end, it'll give a hand full of recommendations to reform the criminal justice system of Pakistan. Relevant case laws have been cited.

EU Criminal Law Valsamis Mitsilegas 2009-03-16 EU Criminal Law is perhaps the fastest-growing area of EU law. It is also one of the most contested fields of EU action, covering measures which have a significant impact on the protection of fundamental rights and the relationship between the individual and the State, while at the same time presenting a challenge to State sovereignty in the field and potentially reconfiguring significantly the relationship between Member States and the EU. The book will examine in detail the main aspects of EU criminal law, in the light of these constitutional

challenges. These include: the history and institutions of EU criminal law (including the evolution of the third pillar and its relationship with EC law); harmonisation in criminal law and procedure (with emphasis on competence questions); mutual recognition in criminal matters (including the operation of the European Arrest Warrant) and accompanying measures; action by EU bodies facilitating police and judicial co-operation in criminal matters (such as Europol, Eurojust and OLAF); the collection and exchange of personal data, in particular via EU databases and co-operation between law enforcement authorities; and the external dimension of EU action in criminal matters, including EU-US counter-terrorism co-operation. The analysis is forward-looking, taking into account the potential impact of the Lisbon Treaty on EU criminal law.

Gender and International Criminal Law Indira Rosenthal 2022-06-16 The last few decades have seen remarkable developments in international criminal justice, especially in relation to the pursuit of individuals responsible for sexual violence and other gender-based crimes. Historically ignored, justified, or minimised, this category of crimes now has a heightened profile in the international political and judicial arena. Despite this, gender is poorly understood, and blind spots, biases, and stereotypes prevail. This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law (ICL). It identifies and analyses past and current narrow understandings of gender, before considering how a limited conceptualization affects accountability efforts. The authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses, including embedding a sophisticated gender strategy into the practice of ICL, the gender-sensitive application of international human rights and humanitarian law, and encouraging a gender-competent approach to judging in ICL. The authors' aim is to strengthen efforts for accountability for all atrocity crimes-war crimes, crimes against humanity, genocide, and aggression.

The Principle of Mutual Trust in EU Criminal Law Auke Willems 2021-02-11 This book develops a conceptual framework of the principle of mutual trust in EU criminal law. Mutual trust is a household term in the EU criminal law vocabulary and is widely regarded to be a prerequisite for a successful application of mutual recognition. But despite its importance, the parameters of the concept are not clear. The book demonstrates that mutual trust is multi-faceted: combining the elements essential to a successful EU criminal law, as part of the Area of Freedom, Security and Justice. The book approaches trust from multiple angles. First, a study of social science literature. Second, a meticulous assessment of mutual trust in EU criminal law. Third, a study of trust in US interstate criminal justice cooperation. Finally, the book identifies a comprehensive approach to tackle trust related difficulties in EU criminal law. This timely book will be of great interest to anyone looking to gain a full picture of this core principle in EU criminal law.

Critical Approaches to International Criminal Law Christine Schwöbel 2014-05-09 Drawing on the critical legal tradition, the collection of international scholars gathered in this volume analyse the complexities and limitations of International Criminal Law. This area of law has recently experienced a significant surge in scholarship and public debate; individual criminal accountability is now firmly entrenched in both international law and the international consciousness as a necessary mechanism of responsibility. *Critical Approaches to International Criminal Law: An Introduction* shifts the debate towards that which has so far been missing from the mainstream discussion: the possible injustices, exclusions, and biases of International Criminal Law. This collection of essays is the first dedicated to the topic of critical approaches to international criminal law. It will be a valuable resource for scholars and students of international criminal law, international law, international legal theory, criminal law, and criminology.

The Emergence of EU Criminal Law Sarah J Summers 2014-12-01 Criminal law can no longer be neatly categorised as the product and responsibility of domestic law. That this is true is emphasised by the ever-increasing amount of legislation stemming from the European Union (EU) which impacts, both directly and indirectly, on the criminal law. The involvement of the EU institutions in the substantive criminal laws of its Member States is of considerable legal and political significance. This book deals with the emerging EU framework for creating, harmonising and ensuring the application of EU criminal law. This book aims to highlight some of the consequences of EU involvement in the criminal law by examining the provisions which have been adopted in the field of information and communications technology. It provides an overview of the criminal law competence of the EU and evaluates the impact of these developments on the criminal laws of the Member States. It then goes on to consider the EU legislation which requires Member States to regulate matters such as data protection, e-security, intellectual property and various types of illegal content through the criminal law is analysed. In the course of this evaluation, particular consideration is given to issues such as the basis on which the EU institutions establish the need for criminal sanctions, the liability of service providers and the extent to which the Member States have adhered to, or departed from, the legislation in the course of implementation.

Statutes and Ordinances of the University of Cambridge 2015 2015-10-08 The official Statutes and Ordinances of the University of Cambridge.

Indigenous Courts, Self-Determination and Criminal Justice Valmaine Toki 2018-04-09 In New Zealand, as well as in Australia, Canada and other comparable jurisdictions, Indigenous peoples comprise a significantly disproportionate percentage of the prison population. For example, Maori, who comprise 15% of New Zealand's population, make up 50% of its prisoners. For Maori women, the figure is 60%. These statistics have, moreover, remained more or less the same for at least the past thirty years. With New Zealand as its focus, this book explores how the fact that Indigenous peoples are more likely than any other ethnic group to be apprehended, arrested, prosecuted, convicted and incarcerated, might be alleviated. Taking seriously the rights to culture and to self-determination contained in the Treaty of Waitangi, in many comparable jurisdictions (including Australia, Canada, the United States of America), and also in the United Nations Declaration on the Rights of Indigenous Peoples, the book makes the case for an Indigenous court founded on Indigenous conceptions of proper conduct, punishment, and behavior. More specifically, the book draws on contemporary notions of 'therapeutic jurisprudence' and 'restorative justice' in order to argue that such a court would offer an effective way to ameliorate the disproportionate incarceration of Indigenous peoples.

Simester and Sullivan's Criminal Law A P Simester 2019-08-22 This is the new edition of the leading textbook on criminal law by Professors Simester and Sullivan, now co-written with Professors Spencer, Stark and Virgo. *Simester and Sullivan's Criminal Law* is an outstanding account of modern English criminal law, combining detailed exposition and analysis of the law with a careful exploration of its theoretical underpinnings. Primarily, it is written for undergraduate students of criminal law and it has become the set text in many leading universities. Additionally, the book is used as an important point of reference in academic writing and postgraduate research in England and abroad. *Simester and Sullivan's Criminal Law* has been cited by appellate courts throughout the world. John Taggart, *Criminal Law Review*

Criminal Law in Action Jan van Dijk 1988-04-06 The title of this work illustrates the two difficulties which the chosen theme poses, difficulties which arise from the confrontation between collective & individual interests. On the one hand, the criminal process is based on the protection of society; on the other hand, human rights implies respect for all individuals implicated in that process, be they victim, witness or accused. A third difficulty arises in

relation to the new influence of European law. While the right to judge has long appeared to be the most obvious indication of national sovereignty, it is now subject to supranational control & a State can be censured by the European Court of Human Rights. Part One of this volume analyses the period of reform in various Eastern & Western European countries; Part Two explores the debate among jurists, historians, sociologists & philosophers on the subject of the criminal trial in a democratic society. Finally, Part Three reflects on the issue within the context of the European Community & the European Council & explores the question of a future model for the European criminal trial. Professor Mireille Delmas-Marty teaches at l'Universite de Paris I Pantheon Sorbonne & is a member of l'Institut Universitaire de France. She is the editor of *The European Convention for the Protection of Human Rights, International Protection versus National Restrictions* (Martinus Nijhoff Publishers, 1992.)

Parchment, Paper, Pixels Peter M. Tiersma 2010-06-15 Technological revolutions have had an unquestionable, if still debatable, impact on culture and society—perhaps none more so than the written word. In the legal realm, the rise of literacy and print culture made possible the governing of large empires, the memorializing of private legal transactions, and the broad distribution of judicial precedents and legislation. Yet each of these technologies has its shadow side: written or printed texts easily become static and the textual practices of the legal profession can frustrate ordinary citizens, who may be bound by documents whose implications they scarcely understand. *Parchment, Paper, Pixels* offers an engaging exploration of the impact of three technological revolutions on the law. Beginning with the invention of writing, continuing with the mass production of identical copies of legal texts brought about by the printing press, and ending with a discussion of computers and the Internet, Peter M. Tiersma traces the journey of contracts, wills, statutes, judicial opinions, and other legal texts through the past and into the future. Though the ultimate effects of modern technologies on our legal system remain to be seen, *Parchment, Paper, Pixels* offers readers an insightful guide as to how our shifting forms of technological literacy have shaped and continue to shape the practice of law today.

Simester and Sullivan's *Criminal Law* J J Child 2022-09-15 '... undoubtedly a first-rate companion for any undergraduate or post-graduate law course.' John Taggart, *Criminal Law Review* This outstanding account of modern English criminal law combines detailed exposition and analysis of the law with a careful exploration of its theoretical underpinnings. Primarily, it is written for undergraduate students of criminal law, covering all subjects taught at undergraduate level. The book's philosophical approach ensures students have a deeper understanding of the law that goes beyond a purely doctrinal knowledge. As a result, over its numerous editions, it has become required reading for many criminal law courses. The 8th edition covers all statutory law including the Assaults on Emergency Workers Act 2018 and Domestic Abuse Act, s 71. Case law discussions now cover: Grant (complicity); Barton (dishonesty); Broughton, Field, Kuddus, and Rebelo (homicide) and AG's Ref (No 1 of 2020) (sexual offences).

Conspiracy and attempts Great Britain: Law Commission 2007-10-10 Conspiring to commit a crime is a criminal offence. Under the current law, when two or more persons plot a crime they can be arrested at the planning stage, regardless of whether the crime is ultimately committed. Attempting to commit a crime is also an offence, but only if the perpetrator commits an act which is a "more than merely preparatory" step towards the commission of the offence itself. This consultation paper examines these two areas of criminal law. With conspiracy, conviction is dependent on it being proved that the perpetrator actually knows that the crime will be committed. With criminal attempt the uncertain character of the law leaves too much doubt in cases where common sense suggests that the accused is guilty. The law's definition of "preparatory" has become too generous to the accused. The Commission puts forward 21 proposals for consultation (which closes on 31 January 2008). The proposals should be considered in light of the recommendations made in the Commission's 2006 report "Inchoate liability for assisting and encouraging crime" (Cm. 6878, Law Com. No. 300, ISBN 9780101687829).

Legitimizing European Criminal Law Merita Kettunen 2019-11-08 The book examines how and according to which principles the enactment of European criminal legislation is legitimate. The approach adopted here focuses on the constitutionalization of criminal law (i.e., the growing importance of constitutional elements of the EU legal order and the ECHR regime within criminal law). Further, it shows how and why criminal law has a unique nature, and why it should not be equated with other fields of EU law. The book explains the basic research questions and methodologies, before turning to the nature of criminal law at the level of national law, and addressing the different levels of justification for criminal law. Further, it examines the most prominent features of European criminal law and the difference between general EU law and EU criminal law, as well as the theoretical ideals for European constitutional structures and criminal law. Examples of how the law in practice might not always be in keeping with these normative ideals serve to round out the coverage.

The Nuremberg Trials: International Criminal Law Since 1945 Herbert R. Reginbogin 2011-11-30 60 years after the trials of the main German war criminals, the articles in this book attempt to assess the Nuremberg Trials from a historical and legal point of view, and to illustrate connections, contradictions and consequences. In view of constantly reoccurring reports of mass crimes from all over the world, we have only reached the halfway point in the quest for an effective system of international criminal justice. With the legacy of Nuremberg in mind, this volume is a contribution to the search for answers to questions of how the law can be applied effectively and those committing crimes against humanity be brought to justice for their actions.
