*The Nuremberg Trials: International Criminal Law Since 1945* Herbert R. Reginbogin 2011-11-30 60 years after the trials of the main German war criminals, the articles in this book attempt to assess the Nuremberg Trials from a historical and legal point of view, and to illustrate connections, contradictions and consequences. In view of constantly reoccurring reports of mass crimes from all over the world, we have only reached the halfway point in the quest for an effective system of international criminal justice. With the legacy of Nuremberg in mind, this volume is a contribution to the search for answers to questions of how the law can be applied effectively and those committing crimes against humanity be brought to justice for their actions.

*The Emergence of EU Criminal Law* Sarah J Summers 2014-12-01 Criminal law can no longer be neatly categorised as the product and responsibility of domestic law. That this is true is emphasised by the ever-increasing amount of legislation stemming from the European Union (EU) which impacts, both directly and indirectly, on the criminal law. The involvement of the EU institutions in the substantive criminal laws of its Member States is of considerable legal and political significance. This book deals with the emerging EU framework for creating, harmonising and ensuring the application of EU criminal law. This book aims to highlight some of the consequences of EU involvement in the criminal law by examining the provisions which have been adopted in the field of information and communications technology. It provides an overview of the criminal law competence of the EU and evaluates the impact of these developments on the criminal laws of the Member States. It then goes on to consider the EU legislation which requires Member States to regulate matters such as data protection, e-security, intellectual property and various types of illegal content through the criminal law is analysed. In the course of this evaluation, particular consideration is given to issues such as the basis on which the EU institutions establish the need for criminal sanctions, the liability of service providers and the extent to which the Member States have adhered to, or departed from, the legislation in the course of implementation.

*Crime, Criminal Law and Criminal Justice in Europe* Hans-Jörg Albrecht 2013-02-01 This unique collection of essays celebrates the twentieth anniversary of the seminal journal the European Journal of Crime, Criminal Law and Criminal Justice, as well as the outstanding and uninterrupted work over that period of its founding Editor-in-Chief, Professor Cyrille Fijnaut. The volume consists of a selection of some of the most ground-breaking articles published over the past twenty years, covering the three areas of focus of the journal: problems of crime, developments in criminal law and changes in criminal justice. It thus explores such diverse issues as the problems of crime in Central and Eastern Europe after the disappearance of the Soviet Union and the collapse of Yugoslavia; the allocation of criminal law power in the European Union; police cooperation in the border areas of the Member States; the criminalization of white collar crime; the establishment of European police services and of a European Public Prosecutor's Office; new forms of criminal justice cooperation between the Member States; and many others. The journal's unique multidisciplinary approach and its commitment to offer insights from a wide variety of European countries and language areas ensure that a varied range of perspectives are offered on the topics discussed. The result is an enlightening and highly readable anthology, shedding light on the extraordinary developments that have taken place in the area of crime and punishment in Europe.

Clear and highly accessible, this volume is presented in a coherent structure and provides full coverage of the topics commonly found in the criminal law syllabus. The range of thoughtfully selected materials and authoritative commentary ensures that this book provides an essential collection of materials and analysis to stimulate the reader and assist in the study of this difficult and challenging area of law. New features include: revised text design with clear page layout, headings and boxed and shaded sections to aid navigation and readability chapter introductions to highlight the salient features under discussion short chapter table of contents to enable easier navigation "Comments and Questions" sections to encourage students to reflect on their reading expanded further reading to encourage students to engage further with the subject a Companion Website to provide regular updates to the book. Recent decisions of note that are extracted and analysed include R v Kennedy (manslaughter based on supply of heroin); Attorney General for Jersey v Holley (provocation); R v Mark and R v Willoughby (elements of killing by gross negligence); R v Barnes (consent as a defence to sporting injuries); Attorney General's Reference (No 3 of 2004) (accessorial liability) and R v Hatton (intoxicated mistake in self defence cases). Consideration is also given to the likely changes to the law relating to corporate manslaughter, at the time of writing contained in the Corporate Manslaughter and Corporate Homicide Bill currently before Parliament. Two major law reform publications are extensively extracted and contextualised in this 4th edition - the Law Commission's report on Murder, Manslaughter and Infanticide (Law Com No 304) and the Law Commission's Report on Inchoate Liability for Assisting and Encouraging Crime (Law Com No 300). This book is an invaluable reference for students on undergraduate or CPE/PG Diploma in Law criminal law courses, particularly those studying independently or on distance learning programmes.

*Legitimizing European Criminal Law* Merita Kettunen 2019-11-08 The book examines how and according to which principles the enactment of European criminal legislation is legitimate. The approach adopted here focuses on the constitutionalization of criminal law (i.e., the growing importance of constitutional elements of the EU legal order and the ECHR regime within criminal law). Further, it shows how and why criminal law has a unique nature, and why it should not be equated with other fields of EU law. The book explains the basic research questions and methodologies, before turning to the nature of criminal law at the level of national law, and addressing the different levels of justification for criminal law. Further, it examines the most prominent features of European criminal law and the difference between general EU law and EU criminal law, as well as the theoretical ideals for European constitutional structures and criminal law. Examples of how the law in practice might not always be in keeping with these normative ideals serve to round out the coverage.

*'Rough Sex' and the Criminal Law* Hannah Bows 2022-11-07 Bows and Herring expertly collate an extensive mix of perspectives on the topic of 'rough sex' to contribute to a powerful feminist investigation of this critical and timely debate.

*Criminal Law in Action* Jan van Dijk 1988-04-06 The title of this work illustrates the two difficulties which the chosen theme poses, difficulties which arise from the confrontation between collective & individual interests. On the one hand, the criminal process is based on the protection of society; on the other hand, human rights implies respect for all individuals implicated in that process, be they victim, witness or accused. A third difficulty arises in relation to the new influence of European law. While the right to judge has long appeared to be the most obvious indication of national sovereignty, it is now subject to supranational control & a State can be censured by the European Court of Human Rights. Part One of this volume analyses the period of reform in various Eastern & Western European countries; Part Two explores the debate among jurists, historians, sociologists & philosophers on the subject of the criminal trial in a democratic society. Finally, Part Three reflects on the issue within the context of the European Community & the European Council & explores the question of a future model for the European criminal trial. Professor Mireille Delmas-Marty teaches at l'Universite de Paris I Pantheon Sorbonne & is a member of l'Institut Universitaire de France. She is the editor of The European Convention for the Protection of Human Rights, International Protection versus National Restrictions (Martinus Nijhoff Publishers, 1992.)

*EU Criminal Law* Valsamis Mitsilegas 2009-03-16 EU Criminal Law is perhaps the fastest-growing area of EU law. It is also one of the most contested fields of EU action, covering measures which have a significant impact on the protection of fundamental rights and the relationship between the individual and the State, while at the same time presenting a challenge to State sovereignty in the field and potentially reconfiguring significantly the relationship between Member States and the EU. The book will examine in detail the main aspects of EU criminal law, in the light of these constitutional challenges. These include: the history and institutions of EU criminal law

(including the evolution of the third pillar and its relationship with EC law); harmonisation in criminal law and procedure (with emphasis on competence questions); mutual recognition in criminal matters (including the operation of the European Arrest Warrant) and accompanying measures; action by EU bodies facilitating police and judicial co-operation in criminal matters (such as Europol, Eurojust and OLAF); the collection and exchange of personal data, in particular via EU databases and co-operation between law enforcement authorities; and the external dimension of EU action in criminal matters, including EU-US counter-terrorism co-operation. The analysis is forward-looking, taking into account the potential impact of the Lisbon Treaty on EU criminal law.

**Critical Approaches to International Criminal Law** Christine Schwöbel 2014-05-09 Drawing on the critical legal tradition, the collection of international scholars gathered in this volume analyse the complexities and limitations of International Criminal Law. This area of law has recently experienced a significant surge in scholarship and public debate; individual criminal accountability is now firmly entrenched in both international law and the international consciousness as a necessary mechanism of responsibility. *Critical Approaches to International Criminal Law: An Introduction* shifts the debate towards that which has so far been missing from the mainstream discussion: the possible injustices, exclusions, and biases of International Criminal Law. This collection of essays is the first dedicated to the topic of critical approaches to international criminal law. It will be a valuable resource for scholars and students of international criminal law, international law, international legal theory, criminal law, and criminology.

**Indigenous Courts, Self-Determination and Criminal Justice** Valmaine Toki 2018-04-09 In New Zealand, as well as in Australia, Canada and other comparable jurisdictions, Indigenous peoples comprise a significantly disproportionate percentage of the prison population. For example, Maori, who comprise 15% of New Zealand's population, make up 50% of its prisoners. For Maori women, the figure is 60%. These statistics have, moreover, remained more or less the same for at least the past thirty years. With New Zealand as its focus, this book explores how the fact that Indigenous peoples are more likely than any other ethnic group to be apprehended, arrested, prosecuted, convicted and incarcerated, might be alleviated. Taking seriously the rights to culture and to self-determination contained in the Treaty of Waitangi, in many comparable jurisdictions (including Australia, Canada, the United States of America), and also in the United Nations Declaration on the Rights of Indigenous Peoples, the book makes the case for an Indigenous court founded on Indigenous conceptions of proper conduct, punishment, and behavior. More specifically, the book draws on contemporary notions of 'therapeutic jurisprudence' and 'restorative justice' in order to argue that such a court would offer an effective way to ameliorate the disproportionate incarceration of Indigenous peoples.

**Criminal Justice System of Pakistan** Fatima Tariq 2020-03-11 Academic Paper from the year 2020 in the subject Law - Criminal process, Criminology, Law Enforcement, grade: A, , course: Criminal Law, language: English, abstract: The point of discussion of this paper is to have a detailed overview of the criminal justice system of Pakistan. It begins with the understanding of the criminal justice system as a general. I would briefly dilate upon several components that constitute and become part and parcel of the criminal justice system of Pakistan; and of course, the objectives of the criminal justice system. Also, this paper penned down the stages of crime. Principles arising out of various case laws related to the administration of justice have been provided. Also, the legal basis of the criminal justice system of Pakistan will be laid down. This paper will explain the landmark criminal case: Mst. Sughran Bibi v The State. I would not have done justice to the subject-matter of the case in hand had I not touch the topic of F.I.R as this case has direct relevance to the concept of F.I.R. I would throw light upon the judgment with regard to the rule of law and its impact on the judicial system of Pakistan. Furthermore, it will be discussed how the current system is flawed. In addition to that this paper will do a comparison between criminal justice of Pakistan with developed states. In the end, it'll give a hand full of recommendations to reform the criminal justice system of Pakistan. Relevant case laws have been cited.

**Criminal Law Reform and Transitional Justice** Dr Lutz Oette 2013-02-28 Sudan has been undergoing profound changes characterized by an uncertain transition from conflict to post-conflict society and the separation of the country in the midst of ongoing human rights concerns. This book examines the nature, policy aspects and interrelationship of Sudanese criminal law and law reform in this context, situating developments in the broader debate of international human rights, rule of law and transitional justice. For the first time, Sudanese, national, regional and international experts and practitioners are brought together to share experiences, combining a range of legal and policy perspectives. The book provides valuable lessons on how relevant standards and experiences can be used to inform criminal law reform in Sudan. It also considers what broader lessons can be drawn for reform initiatives in other societies facing similar challenges. This includes the type of violations that need to be addressed in reforms as a prerequisite for enhanced human rights protection, challenges experienced in this regard, and the contribution of civil society in this process.

**The United Nations Crime Prevention and Criminal Justice Program** Roger S. Clark 1994-01-29 In December 1991 the United Nations General Assembly adopted a resolution entitled "Creation of an Effective United Nations Crime Prevention and Criminal Justice Program." That resolution sought to consolidate and restructure a program in international cooperation in the criminal justice area that had existed from the early days of the United Nations. In particular, the resolution provided for the creation of a new intergovernmental body to oversee the program, the Commission on Crime Prevention and Criminal Justice. This book, by Roger S. Clark, examines the UN program and its prospects under the arrangements devised by the General Assembly. Clark concisely recounts its history and its activities, describes the adoption of the various United Nations norms and standards that originated within the program, provides a detailed consideration of some of the major instruments adopted under the auspices of the program, and examines efforts to progress from the promulgation of standards and norms to their monitoring and implementation.

**Simester and Sullivan's Criminal Law** A P Simester 2019-08-22 This is the new edition of the leading textbook on criminal law by Professors Simester and Sullivan, now co-written with Professors Spencer, Stark and Virgo. Simester and Sullivan's Criminal Law is an outstanding account of modern English criminal law, combining detailed exposition and analysis of the law with a careful exploration of its theoretical underpinnings. Primarily, it is written for undergraduate students of criminal law and it has become the set text in many leading universities. Additionally, the book is used as an important point of reference in academic writing and postgraduate research in England and abroad. Simester and Sullivan's Criminal Law has been cited by appellate courts throughout the world. Review of Previous Edition: '... undoubtedly a first-rate companion for any undergraduate or post-graduate law course. Since attaining international recognition and citation in appellate courts worldwide, the security of the text's position as a point of academic reference remains as steadfast as ever.' John Taggart, Criminal Law Review

**Gender and International Criminal Law** Indira Rosenthal 2022-06-16 The last few decades have seen remarkable developments in international criminal justice, especially in relation to the pursuit of individuals responsible for sexual violence and other gender-based crimes. Historically ignored, justified, or minimised, this category of crimes now has a heightened profile in the international political and judicial arena. Despite this, gender is poorly understood, and blind spots, biases, and stereotypes prevail. This book brings together leading feminist international criminal and humanitarian law academics and practitioners to examine the place of gender in international criminal law (ICL). It identifies and analyses past and current narrow understandings of gender, before considering how a limited conceptualization affects accountability efforts. The authors consider how best to implement a more nuanced understanding of gender in the practice of international criminal law by identifying possible responses, including embedding a sophisticated gender strategy into the practice of ICL, the gender-sensitive application of international human rights and humanitarian law, and encouraging a gender-competent approach to judging in ICL. The authors' aim is to strengthen efforts for accountability for all atrocity crimes-war crimes, crimes against humanity, genocide, and aggression.

**Lacey, Wells and Quick Reconstructing Criminal Law** Celia Wells 2010-05-27 Since the publication of the first edition, this textbook has offered one of the most distinctive and innovative approaches to the study of criminal law. Material is organised thematically and is clearly signposted at the beginning of each section to allow the student to navigate successfully through the different fields. This new edition looks at topical issues such as policing, the Serious Crime Act 2007 and reform of the Fraud Act 2006. Relevant case law and extracts from the most topical and engaging debates on the subject give the material immediacy. **The Defence of Mistake of Law in International Criminal Law** Antonio Cocco 2022-08-04 The adage 'ignorance of the law is no excuse' is significantly inaccurate. Ignorance and mistake of law do, under certain circumstances, exclude responsibility both in national and international criminal law. This monograph updates the existing reviews of law and practice on the topic, aiming to go a step further: it takes the analysis of mistake of law as a starting point for systematic observations about international criminal law in general. First, the volume defines the contours of the defence of mistake of law in general theory of criminal law, distinguishing it from cognate defences and highlighting, most notably, its connection with superior orders. Secondly, it gives an overview of the possible approaches to the defence, offering examples from national law as terms of reference for the subsequent analysis of international criminal law. Thirdly, it surveys the relevant law and practice of international criminal tribunals, with a focus on the International Criminal Court, and it contemplates offences for which a defence of mistake of law may potentially succeed. Finally, the author tries to interpret what the rules on mistake of law applicable before international criminal tribunals imply about the purpose of punishing individuals and to the legitimacy of such punishment. Whilst the discourse on international criminal law is more and more concerned with global politics, The Defence of Mistake of Law in International Criminal Law brings back the focus on the appropriateness of imposing a guilty verdict on the individual defendant, a human being constituting the basic unit of each society.

**The Principle of Mutual Trust in EU Criminal Law** Auke Willems 2021-02-11 This book develops a conceptual framework of the principle of mutual trust in EU criminal law. Mutual trust is a household term in the EU criminal law vocabulary and is widely regarded to be a prerequisite for a successful application of mutual recognition. But despite its importance, the parameters of the concept are not clear. The book demonstrates that mutual trust is multi-faceted: combining the elements essential to a successful EU criminal law, as part of the Area of Freedom, Security and Justice. The book approaches trust from multiple angles. First, a study of social science literature. Second, a meticulous assessment of mutual trust in EU criminal law. Third, a study of trust in US interstate criminal justice cooperation. Finally, the book identifies a comprehensive approach to tackle trust related difficulties in EU criminal law. This timely book will be of great interest to anyone looking to gain a full picture of this core principle in EU criminal law.
