The Gospel according to The Simpsons, Bigger and Possibly Even Better! Edition Mark I. Pinsky 2007-05-24 Is there anything holy in Springfield, the home to irascible Bart Simpson and his naive dad Homer, their enthusiastic evangelical neighbor Ned Flanders, the sourpuss minister Rev. Lovejoy, and the dozens of other unique characters who inhabit the phenomenally popular TV show? In this revision of the 2001 bestseller, author Mark Pinsky says yes! In this entertaining and enlightening book, Pinsky shows how The Simpsons engages issues of religion and morality in a thoughtful, provocative, and genuinely respectful way. With three new chapters and updates to reflect the 2001-2006 seasons, Pinsky has given a thorough facelift to the book that Publishers Weekly called "thoughtful and genuinely entertaining." The new material includes chapters on Buddhism and gay marriage and an extensive afterword that explores how religion is treated on the animated shows that have followed in the footsteps of The Simpsons: South Park, Family Guy, Futurama, American Dad, and King of the Hill.

Imaging the City Jr. Warner 2021-12-17 Planners face a controversial task because their professional role requires them to be spokespersons for the public interest. In a welter of conflicting pictures and voices, how might the public interest be discovered? Once identified, how might it be expressed so that competing publics attend to it? There are no easy answers, but the experience of planners today suggests ways of working and innovations of promise. The focus on planning practice prompted the editors to analyze images that are now at work in our cities. For Vale and Warner, all city design and constructions offer material that people should include in images of their environment. The built and building city are part of the experience of all city dwellers; it is theirs to incorporate, interpret, or ignore. Essays included in this text trace the interplay between physical objects of planners and architects and the social experience and outlooks of image makers and their audiences. Imaging the City explores urban image making from civic boosterism of medieval cities to iconic imagery of Times Square. Vale and Warner bring together urban historians, geographers, city planners, architects, and cultural commentators to analyze the creation of urban imagery from the signature skyscrapers of Kuala Lumpur to the re-creation of the South Bronx and the use of city images in film, literature, television, and on the Internet. Urban dwellers, urban planners, architects, municipal officials, sociologists, urban historians - all will perceive their worlds with a heightened sense of awareness after reading this book.

The Procrastination Economy Ethan Tussey 2020-04-01 2018 Outstanding Academic Title, given by Choice Magazine How mobile devices make our in-between moments valuable to media companies while also providing a sense of control and connection In moments of downtime - waiting for a friend to arrive or commuting to work - we pull out our phones for a few minutes of distraction. Just as television reoriented the way we think about living rooms, mobile devices have taken over the interstitial spaces of our everyday lives. Ethan Tussey argues that these in-between moments have created a procrastination economy, an opportunity for entertainment companies to create products, apps, platforms, subscription services, micropayments, and interactive opportunities that can colonize our everyday lives. But as businesses commoditize our free time, and mobile devices become essential tools for promotion, branding and distribution, consumers are using these devices as a means of navigating public and private space. These devices are not just changing the way we spend and value our time, but also how we interact with others and transform our sense of the politics of space. By examining the four main locations of the procrastination economy—the workplace, the commute, the waiting room, and the “connected” living room—Ethan Tussey illuminates the relationship between the entertainment industry and the digitally empowered public.
