Junge Männer im Feuer Norman Maclean 2016-01-15 Am 5. August 1949 setzt ein Flugzeug über den rauhen Bergen von Montana 15 Fallschirmspringer des Forstdienstes ab. Ihre Aufgabe: die Bekämpfung eines zunächst ungefährlich eingestuften Waldbrandes in einer unwegsamen Schlucht. "Smokejumpers" waren die jungen Männer dieser Mannschaft, Feuerspringer, und die meisten von ihnen erstickten, verbrannten oder erlagen ihren schweren Brandwunden. Nur zwei entkamen dem Inferno und überlebten die Katastrophe. Mehr als ein Vierteljahrhundert später greift Norman Maclean die ungeschriebene Geschichte dieses Feuers auf und entdeckt darin alle Elemente einer klassischen Tragödie. Fundamentals of Air Pollution Daniel Vallero 2014-07-26 Fundamentals of Air Pollution is an important and widely used textbook in the environmental science and engineering community. This thoroughly revised fifth edition of Fundamentals of Air Pollution has been updated throughout and remains the most complete text available, offering a stronger systems perspective and more coverage of international issues relating to air pollution. Sections on pollution control have been reorganized and updated to demonstrate the move from regulation and control approaches to green and sustainable engineering approaches. The fifth edition maintains a strong interdisciplinary approach to the study of air pollution, covering such topics as chemistry, physics, meteorology, engineering, toxicology, policy, and regulation. New material includes near-road air pollution, new risk assessment approaches, indoor air quality, the impact of biofuels and fuel additives, mercury emissions, forecasting techniques, and the most recent results from the National Air Toxics Assessment. Stronger systems approach, emphasizing the impact of air pollution on ecosystems and human health Risks, measures, models, and control of air pollution are discussed at scale - starting at the individual/niche level and expanding to planetary/global scale Increased emphasis on international issues, including coverage of European initiatives and discussions of the impact of emerging economies like India and China Updated references, standards, and methods throughout the book make this the most current air pollution text/reference on the market All new end-of-chapter problems enhance its usefulness as a course text

Firefighting Operations in High-Rise and Standpipe-Equipped Buildings David M. McGrail 2007 This book establishes a proper firefighting mindset and promotes maintaining preparedness for the extreme physical and mental demands of firefighting operations in high-rise and standpipe-equipped buildings ... Among the many valuable topics covered in this book are: standpipe system pressure regulating devices, pressure restricting devices and pressure reducing valves; cautious and disciplined elevator use during high-rise operations; elevator rescue operations; proper engine company suppression selection, including techniques to operate more powerful firefighting weapons with limited manpower; air support operations during high-rise emergencies, with or without an internal resource.

Brannigan's Building Construction for the Fire Service Francis Brannigan 2010-02-22 Brannigan's *Building Construction for the Fire Service*, Fourth Edition is a must read for fire fighters, prospective fire fighters, and fire science students. This edition continues the Brannigan tradition of using plain language to describe technical information about different building types and their unique hazards. This text ensures that critical fire fighting information is easy-to-understand and gives valuable experience to fire fighters before stepping onto the fireground. The first edition of *Building Construction for the Fire Service* was published in 1971. Frank Brannigan was compelled to write the most comprehensive building construction text for the fire service so that he could save fire fighters' lives. His passion for detail and extensive practical experience helped him to develop the most popular text on the market. His motto of: "Know your buildings," informs every aspect of this new edition of the text. Listen to a Podcast with Brannigan's *Building Construction for the Fire Service*, Fourth Edition co-author Glenn Corbett to learn more about this training

program! Glenn discusses his relationship with the late Frank Brannigan, the dangers of heavy construction timber, occupancy specific hazards, and other areas of emphasis within the Fourth Edition. To listen now, visit:
