Routledge Handbook of Islamic Ritual and Practice Oliver Leaman 2022-06-09 Ritual and practice are one of the most distinctive features of religion, and they are linked with its central beliefs. Islam is no exception here, and this Handbook covers many aspects of those beliefs and practices. It describes the variety of what takes place but mainly why, and what the implications of both the theory and practice have for our understanding of Islam. The book includes accounts of prayer, food, pilgrimage, mosques, and the various legal and doctrinal schools that exist within Islam, with the focus on how they influence practice. The volume is organized in terms of texts, groups, practices, places, and others. An attempt has been made to discuss the wide range of Muslim ritual and practice and provide a sound guide to this significant aspect of the religious life of one of the largest groups of believers in the world today.

Iraq + 100 Hassan Blasim 2017-09-12 One of NPR's Best Books of 2017! A groundbreaking anthology of science fiction from Iraq that will challenge your perception of what it means to be "The Other" "History is a hostage, but it will bite through the gag you tie around its mouth, bite through and still be heard."—Operation Daniel In a calm and serene world, one has the luxury of imagining what the future might look like. Now try to imagine that future when your way of life has been devastated by forces beyond your control. Iraq + 100 poses a question to Iraqi writers (those who still live in that nation, and those who have joined the worldwide diaspora): What might your home country look like in the year 2103, a century after a disastrous foreign invasion? Using science fiction, allegory, and magical realism to challenge the perception of what it means to be "The Other", this groundbreaking anthology edited by Hassan Blasim contains stories that are heartbreakingly surreal, and yet utterly recognizable to the human experience. Though born out of exhaustion, fear, and despair, these stories are also fueled by themes of love, family, and endurance, and woven through with a delicate thread of hope for the future. Commentary to the Faith of Shia Islam by Allama AL-Muzaffar Allama al-Muzaffar 2018-07-19 The book Aqaed Imamiyya by Allama Muzaffar is a great book outlining the faith of Shia Islam. It is usually studied in the first years of Howza 'Ilmiyya (seminary). The book is a very brief outline of our beliefs and thus the teacher usually expands on the subjects to give further knowledge to his students. I originally studied this text with Sheikh Mustafa Akhound in early 2014. In 2016 I was asked to teach this book for Imam Mahdi Online Howza. I started preparing my lessons to record and decided to make them into book form for everyone to benefit from them. The formatting of this book is as follows: the original Arabic text is presented first, the translation of the text is second bracketed in bold text and lastly is my commentary of the text which is in regular font. When looking at each topic I chose to bring more evidences to support the proofs of Allama Muzaffar in attempt to remove any shadow of a doubt within the readers mind. I brought Quranic verses, narrations, logic and various scholars opinions. I also addressed some common doubts and misconceptions that people have in hopes to erase those doubts. Lastly, I brought moral and ethical points to show the practical application of some of these topics that Allama Muzaffar has brought within his book.

Ethnographies of Islam: Ritual Performances and Everyday Practices Baudouin Dupret 2012-07-23 This volume explores the ways in which ethnography can create a greater understanding of Islam in particular social contexts. It does so by advancing a pluralistic use of ethnography in research about Islam in anthropology and the other social science disciplines. The contributors have used ethnography to engage with and relate to specific empirical realities in regions around the world. They argue that this approach allows for a more precise and complex understanding of the practices and discourses that constitute social realities constructed and perceived as 'Islamic' by those who live them. Furthermore, the book encourages ethnography in the study of Muslim practices that have seldom been approached in this way.

Women's Rituals and Ceremonies in Shiite Iran and Muslim Communities Pedram Khosronejad 2015 In this volume the authors present and discuss different aspects of their field researches and experiences in regard to the women's rituals and devotional practices. One of the main aims of this book is to broaden our understanding of women's devotional life, as well as calling attention to its relation to general social change. Most of the contributions are based on field researches, direct observations and rituals participations. This gives the reader a unique opportunity for better understanding of methodological challenges related to gender issues and field research among Muslim communities. --

Jerusalem Tamar Mayer 2008-05-09 Jerusalem, the holy city of three faiths, has been the focus of competing historical, religious, and political narratives from Biblical chronicles to today's headlines. With an aura that transcends the boundaries of time and place, the city itself embodies different levels of reality – indeed, different realities altogether – for both observers and inhabitants. There is the real Jerusalem, a place of ancient streets and monuments, temples and coffee-houses, religious discourse and political argument. But there is also the imaginary and utopian city that exists in the minds of believers, political strategists, and artists. The study of this multifaceted city poses complex questions that range over several fields of inquiry. The multidisciplinary studies in Jerusalem offer insights into this complexity. Chapters by leading scholars examine the significant issues that relate to the perception, representation, and status of the city at the historical, religious, social, artistic, and political levels. Together they provide an essential resource for anyone interested in the paradoxes that Jerusalem offers.

The Cult of Saints among Muslims and Jews in Medieval Syria Josef W. Meri 2002-11-14 This accessible study is the first critical investigation of the cult of saints among Muslims and Jews in medieval Syria and the Near East. Through case studies of saints and their devotees, discussion of the architecture of monuments, examination of devotional objects, and analysis of ideas of 'holiness', Meri depicts the practices of living religion and explores the common heritage of all three monotheistic faiths. Critical readings of a wide range of contemporary sources - travel writing, geographical works, pilgrimage guides, legal writings, historical sources, hagiography, and biography - reveal a vibrant religious culture in which the veneration of saints and pilgrimage to tombs and shrines were fundamental.

Shi'a Minorities in the Contemporary World Oliver Scharbrodt 2020-06-18 Global migration flows in the 20th century have seen the emergence of Muslim diaspora and minority communities in Europe, North America and other parts of the world. This book offers a set of new comparative perspectives on the experiences of Shi'a Muslim minorities outside the so-called Muslim heartland (Middle East, North Africa, Central and South Asia). It looks at Shi'a minority communities in Europe, North and South America, Sub-Saharan Africa and East Asia and discusses the particular challenges these communities face as "a minority within a minority" --

The Failure of Democracy in Iraq Hamid Alkifaey 2019-01-16 The Failure of Democracy in Iraq studies democratization in post-2003 Iraq, which has so far failed, due mainly to cultural and religious reasons. There are other factors, such as the legacy of the dictatorial regime, exclusionary policies, the problem of stateness, interference by regional powers, the rentier economy and sectarianism, that have impeded democracy and contributed to its failure, but the employment of religion in politics was the most to blame. The establishment of stable democratic institutions continues to elude Iraq, 15 years after toppling the dictatorship. The post-2003 Iraq could not completely eradicate the long historical tradition of despotic governance due to deep-seated religious beliefs and tribal values, along with widening societal ethno-sectarian rifts which precluded the negotiation of firm and stable elite settlements and pacts across communal lines. The book examines how the fear in neighbouring countries of a region-wide domino effect of the Iraq democratization process caused them to adopt interventionist policies towards Iraq that helped to stunt the development of democracy. The lack of commitment by the initiator of the democratic process, the United States, undermined the prospects of democratic consolidation. This is compounded by serious mistakes such as de-Ba'athification and the disbanding of the Iraqi army and security apparatuses which caused a security vacuum the US forces were not able to fill. The Failure of Democracy in Iraq is a key resource for all students and academics interested in democracy, Islam and Middle East Studies.

A History of the 'Alawis Stefan Winter 2016-09-20 The 'Alawis, or Alawites, are a prominent religious minority in northern Syria, Lebanon, and southern Turkey, best known today for enjoying disproportionate political power in war-torn Syria. In this book, Stefan Winter offers a complete history of the community, from the birth of the 'Alawi (Nusayri) sect in the tenth century to just after World War I, the establishment of the French mandate over Syria, and the early years of the Turkish republic. Winter draws on a wealth of Ottoman archival records and other sources to show that the 'Alawis were not historically persecuted as is often claimed, but rather were a fundamental part of Syrian and Turkish provincial society. Winter argues that far from being excluded on the basis of their religion, the 'Alawis were in fact fully integrated into the provincial administrative order. Profiting from the economic development of the coastal highlands, particularly in the Ottoman period, they fostered a new class of local notables and tribal leaders, participated in the modernizing educational, political, and military reforms of the nineteenth century, and expanded their area of settlement beyond its traditional mountain borders to emerge from centuries of Sunni imperial rule as a bona fide sectarian community. Using an impressive array of primary materials spanning nearly ten centuries, *A History of the 'Alawis* provides a crucial new narrative about the development of 'Alawi society.

Shi'i Islam Moojan Momen 2015-11-05 From infallible Imams to Ayatollahs in Iran, Shi'ism has long been a prominent, if misunderstood, branch of Islam. It regards Ali, Muhammad's son-in-law, as the Prophet's legitimate successor. But theological differences between the Shi'ah and Sunni Muslims have led to sectarian violence, massacres and the desecration of holy sites. In this *Beginner's Guide*, Dr Moojan Momen offers an accessible and comprehensive overview of Shi'ism, tracing the history of the community, its leadership and doctrines, from its inception to modern times. Packed with useful tables, family trees and text boxes, this engaging and up-to-date guide is a perfect introduction to the historical and geopolitical causes of religious tensions still troubling the Middle East today.

Egyptology Okasha El Daly 2005 *Egyptology: The Missing Millennium* brings together for the first time the disciplines of Egyptology and Arabic Studies, seeking to overturn the conventional opinion of Western scholars that Moslems/ Arabs had no interest in pre-Islamic cultures. This book examines a neglected period of a thousand years in the history of Egyptology, from the Moslem annexation of Egypt in the seventh century CE until the Ottoman conquest in the 16th century. Concentrating on Moslem writers, as it is usually Islam which incurs blame for cutting Egyptians off from their ancient heritage, the author shows not only the existence of a large body of Arabic sources on Ancient Egypt, but also their usefulness to Egyptology today. Using sources as diverse as the accounts of travellers and treasure hunters to books on alchemy, the author shows that the interest in ancient Egyptian scripts continued beyond classical writers, and describes attempts by medieval Arab scholars, mainly alchemists, to decipher the hieroglyph script. He further explores medieval Arab interest in Ancient Egypt, discussing the interpretations of the intact temples, as well as the Arab concept of Egyptian kingship and state administration - including a case study of Queen Cleopatra that shows how the Arabic romance of this queen differs significantly from Western views. This book will be of great interest to academics and students of archaeology, Arabic studies and Egyptology, as well as anyone with a general interest in Egyptian history. 'This is an impressive piece of work. It deals with a grossly neglected and misunderstood subject - the interest and knowledge of Ancient Egypt on the part of Arabic/ Moslem writers in the Medieval period - and it covers this subject from many aspects.' Professor Charles Burnett, The Warburg Institute

The Suffering of the Ahl ul Bayt and their Followers (Shia) throughout History Mateen J. Charbonneau 2018-09-04 Imam Baqir (as) said "Since the death of the Holy Prophet (s) we Ahl ul bayt have been humiliated, made distant and have been deprived and killed and made to leave our home town and we felt frightened for our blood and the blood of our followers. The cheaters, through their lies, got nearer to the leaders, judges and governors in every city and our enemies told false and invalid traditions relating to their past leaders and quoted narrations that we had never told. They only wanted to humiliate us and wanted to accuse us of falsehood, and wanted to get nearer to their leaders through lies. After the passing away of Hassan (a.s) this became very common during the time of Muawiyah. At that time, in every city, Shias were killed, their hands and feet were cut off and they were hanged on accusations of their being near to us and talking about their love for us."

A Study Guide for Logic Mateen Charbonneau 2016-05-27 I was blessed to study the subject of Logic with some very great teachers while in Virginia, USA. I studied the first half of al-Manteq of Allama Muzaffer with Sheikh Mustafa Akhound and the remaining half and also al-Mujiz fil Manteq of Sayed Sadiq Shirazi with Sheikh Mohammad Baghernejad. This was by far one of the most challenging tasks that I have ever completed. I thank Allah that I had good and patient teachers to explain this science to me in a way that I was able to grasp the knowledge of this necessary subject. Throughout the time I was studying these two books I thought that there must be an easier way to structure the summary of this information into a study guide to help remember the terms, divisions, figures, moods, examples, etc. This prompted me to start writing a study guide for myself and also drawing charts to help remember the examples. I put all of them together in hopes that this book will help aid the student of knowledge when he studies the two books of Manteq by Allama Muzaffer and Sayed Shirazi. Mateen J. Charbonneau "The science of logic is a fundamental knowledge of any other science. Although studying logic needs a lot of efforts and critical thinking, it helps the student to systemize his way of thinking. Having a study guide for logic is a necessity to accomplish an understanding of logic. I'm confident that the students of logic would love this book and I appreciate Sheikh Mateen for compiling it." Sheikh Mohammad Baghernejad

Three Centuries of Travel Writing by Muslim Women Siobhan Lambert-Hurley 2022-08-02 When thinking of intrepid travelers from past centuries, we don't usually put Muslim women at the top of the list. And yet, the stunning firsthand accounts in this collection completely upend preconceived notions of who was exploring the world. Editors Siobhan Lambert-Hurley, Daniel Majchrowicz, and Sunil Sharma recover, translate, annotate, and provide historical and cultural context for the 17th- to 20th-century writings of Muslim women travelers in ten different languages. Queens and captives, pilgrims and provocateurs, these women are diverse. Their connection to Islam is wide-ranging as well, from the devout to those who distanced themselves from religion. What unites these adventurers is a concern for other women they encounter, their willingness to record their experiences, and the constant thoughts they cast homeward even as they traveled a world that was not always prepared to welcome them. Perfect for readers interested in gender, Islam, travel writing, and global history, *Three Centuries of Travel Writing by Muslim Women* provides invaluable insight into how these daring women experienced the world—in their own voices.

The New Comparative Theology Francis X. Clooney, S.J. 2010-06-03 This book is an extended, critical reflection on the state of interreligious dialogue in its modern version. While there has been some important writing in the field of comparative theology, there has been no extended, critical reflection on the state of the discipline in its modern version, its strengths and problematic areas as it grows as a serious theological and scholarly discipline. This work of young scholars in conversation with one another, remedies this lack by, as it were, taking the discipline apart and putting it back together again. The volume seeks to understand how to learn from multiple religions in a way that is truly open to those religions on their own terms, while yet being rooted in the tradition/s that we bring to our interreligious study.

Pilgrimage in Islam Sophia Rose Arjana 2017-06-15 It is not only the holy cities of Mecca and Karbala to which Muslim pilgrims travel, but a wide variety of sacred sites around the world. Journeys are undertaken to visit graves of important historical and religious individuals, the tombs of saints, and natural sites such as mountaintops and springs. Exploring the richness and diversity of traditions practiced by the 1.5 billion Muslims across the world, Sophia Rose Arjana provides a rigorous theoretical discussion of pilgrimage, ritual practice and the nature of sacred space in Islam, both historically and in the present day. This all-encompassing survey covers issues such as time, space, tourism, virtual pilgrimages and the use of computers and smartphone apps. Lucidly written, informative and accessible, it is perfectly suited to students, scholars and the general reader seeking a comprehensive picture of the defining ritual of religious pilgrimage in Islam.

Muslim Pilgrimage in Europe Ingvild Flakerud 2017-07-20 In spite of Islam's long history in Europe and the growing number of Muslims resident in Europe, little research exists on Muslim pilgrimage in Europe. This collection of eleven chapters is the first systematic attempt to fill this lacuna in an emerging research field. Placing the pilgrims' practices and experiences centre stage, scholars from history, anthropology, religious studies, sociology, and art history examine historical and contemporary hajj and non-hajj pilgrimage to sites outside and within Europe. Sources include online travelogues, ethnographic data, biographic information, and material and performative culture. The interlocutors are European-born Muslims, converts to Islam, and Muslim migrants to Europe, in addition to people who identify themselves with other faiths. Most interlocutors reside in Albania, Bosnia-Herzegovina, Italy, France, the Netherlands, Great Britain, and Norway. This book identifies four courses of developments: Muslims resident in Europe continue to travel to Mecca and Medina, and to visit shrine sites located elsewhere in the Middle East and North Africa. Secondly, there is a revival of pilgrimage to old pilgrimage sites in South-eastern Europe. Thirdly, new Muslim pilgrimage sites and practices are being established in Western Europe. Fourthly, Muslims visit long-established Christian pilgrimage sites in Europe. These practices point to processes of continuity, revitalization, and innovation in the practice of Muslim pilgrimage in Europe. Linked to changing sectarian, political, and economic circumstances, pilgrimage sites are dynamic places of intra-religious as well as inter-religious conflict and collaboration, while pilgrimage experiences in multiple ways also transform the individual and affect the home-community.
