COPSOQ III. Guidelines and questionnaire. - copsoq-network.org

Webcopsoq-network 8 4. All the employees have the right to see and discuss the results they have contributed to. 5. Workers, workers' representatives, supervisors and managers should participate actively during the whole process. 6. There are no standard solutions to problems. Solutions should be developed in a participatory,

Microsoft Office 365 for Citrix XenApp and XenDesktop 7

WebAlthough Microsoft supports a network mapped cache file, Microsoft may not agree to troubleshoot performance-related issues in this configuration. Regardless of this caveat, a network attached cache file is the recommended approach for a XenApp and XenDesktop implementation to provide a better user experience. To create a network

Oracle Databases on RAC Deployment Guide: VMware, Inc.

WebTo support a virtual IP address, both nodes require an unused IP address that is compatible with the public network's subnet and subnet mask. For communications between instances running on the four nodes, a private network is required. This private network connects only the nodes in the cluster and cannot be accessed from outside the cluster.
