[Dyslexia in the Secondary School](#) Anthony Cogan 2004-01-16 This book explains why dyslexic students frequently underachieve and demonstrates that adjustments in teaching and learning methods can make all the difference, provided that underlying problems are identified. After reading 'Dyslexia in Secondary School,' teachers will be able to identify children with specific learning problems and know better how to help them with their school work. Examples are based on the curriculum and show how to advise students on essay-writing, note taking, memorising vocabulary and reading to remember. Parents and specialist teachers will find that they can then translate educational psychologists' theory into practical action. The students themselves will be encouraged to look carefully at how they learn, and, using their strengths rather than their weaknesses, try out alternative strategies. This book contains diagrams, mind maps, and worksheets as well as many ideas for teachers. Focusing as it does on the way we learn, 'Dyslexia in Secondary School' will interest all teachers and students - not just those with specific learning difficulties. [Growing Up With Tanzania](#) F. Hirji 2014-07-17 In Growing up with Tanzania. Karim Hirji, a renowned Professor of Medical Statistics and Fellow of the Tanzania Academy of Science, presents a multi-faceted, evocative portrait of his joyous but conflicted passage to adulthood during colonial and early-Uhuru Tanzania. His style engages the reader with absorbing true tales, cultural currents, critical commentary and progressive possibilities. By vibrantly contrasting the hope-filled spirit of the cynical modern era, he also lays bare the paradoxes of personal life and society, past and present.
